THE TRUTH ABOUT WHAT HAPPENED IN BALI, AUSTRALIA AND NEW ZEALAND TO CORRECT THE MEDIA MISINFORMATION

HOW IT STARTED

I grew up on an organic farm and so from an early age I was blessed with the understanding of how food should be pure and nutritious when it arrives in our mouths. At that time I had no interest in farming so I joined Australia Post for 10 years at which time I changed career to the Queensland Police Service where upon I received a hep B vaccine bioweapon during police training and that woke me up to how damaging vaccines are as my life force was stolen by the criminal corporations.

VACCINE INDUCED CFS

I was suffering Chronic Fatigue Syndrome and so began my quest to restore my life force. After 5 years I discovered oxygen therapies to substantially heal myself and its where I first learnt about the importance of cell respiration and Adenosine Tri Phospate levels.

Then 22 years as a police officer which included investigating the deaths of babies soon after they were given vaccines and then helping the falsely accused parents who are double victims who lose their baby, are most times demonised by the media, then imprisoned as baby killers and often assaulted by zombie prisoners. We all need to realise the full implications of this high crime. My career ended suddenly at the hands of dishonest high ranking police who are brainwashed by Rockefeller medicine corruption.

Whenever babies are assaulted with vaccines it causes cerebral cortex (brain) swelling which is a brain injury that can result in death and the Queensland Police Service and most western police establishments then rely on doctors who vaccinate to supply so called 'professional evidence' against parents and baby sitters who are falsely accused of assaulting or shaking babies and often end up being imprisoned. The media refuse to report this massive story so please share this video to save babies the agony caused by vaccine bioweapons and to stop the additional crime of innocent parents or baby sitters being sent to prison!

POLICE OFFICER CHRIS SAVAGE BLOWS LID ON VACCINE CRIMES

FAMILY DISINTEGRATED

Then my own family cohesion was totally disrupted by phytoestrogen from Black Cohosh herb contain in a product called '30Plus' which occupies the hormone receptor site of the corpus luteum and turns down progesterone and also the Thyroid which in turn leads to an Endocrine crisis. Thereafter they blame others for their stress and hate overwhelms love. This drove me to learn about the Endocrine and what causes Endocrine disruption and how to restore the transmission of love in relationships.

LUGOLS IODINE

I also discovered the truth about Lugols Iodine. That it is an essential mineral for cell function. Dr Sircus showed me how to have higher doses of Lugols Iodine to restore sleep

by decalcifying the Pineal. My brother and I then manufactured Lugols Iodine and made it available at a lower price.

I realised the rule of thumb is whatever Rockefeller medicine says, its better to take responsibility for oneself or do the exact opposite after having done the research. Check the a [periodic table](#) (column 17) Halogens and see how the top lighter weight Fluoride is touted as good and the heavier Iodine is bad. That is a classic example of dishonestly interpreted science. Lugols Iodine is not a poison and high doses are absolutely wonderful. Here are: [Dose recommendations](#)

ANCIENT MAGNESIUM OIL

The Ancient Magnesium Chloride oil with Boron and MSM Sulphur (not to be confused with Magnesium Sulphate which is toxic) discovery has been incredible for everyone to give them better sleep, strong teeth, remineralised bones and keep the love flowing powerfully and naturally. I found out that application of Magnesium oil eliminates muscle tension and calcification knots. The Ancient Magnesium also builds love and removes stress.

I experimented with intravenous infusions of Magnesium Chloride to overcome high sugar levels and after two infusions my sugar normalised. So excited by this I offered IV kits on Facebook and was promptly visited by TGA officials who's written warning instructing that I must desist.

BALI EXPEDITION

As a result I journeyed to Bali and it led to truly amazing discovery of the calcification epidemic that made me realise all Australians are blocked up with calcification and needed help cleaning this out and so I assisted in the intravenous infusions of Magnesium Chloride and [DMSO](#) that decalcified arteries and organs and restored degraded necks, hips and spines. Brains were also cleaned of vaccine ingredients.

The recipients of the treatment healed demineralised hips and backs. Also decalcified necks and a scoliosis patient restored 80% before treatment was cut short by the next event.

I got my second taste of Rockefeller medical tyranny courtesy of the Australian [skeptic](#) marxists due to the Indonesianu government being informed. I had to leave Bali or face 5 years in an Indonesion prison. A cat and mouse situation then ensued to avoid the authorities and safely leave Bali. This is what we the people are up against...Rockefeller Medicine. The corporate media published the following [story](#).

Rockefeller Medicine

MEDIA MISINFORMATION

After arriving back in Queensland I assisted Bec Coombes with a brain tumour. These conditions always point to high levels of brain toxicity and upon receiving the iv infusion she misread the discomfort that the infusion was toxic but in fact it was all the brain toxicity coming out that gave rise to the cancer. As a result she discontinued after one infusion and I gave her knowledge of how to otherwise take control of her health. She repaid my kindness with evil actions.

"We may need to seek them out and destroy them where they live,"

wrote a Merck & Co. employee who was actively plotting to murder or otherwise destroy the reputation of doctors who had voiced concerns regarding the adverse health effects of an anti-inflammatory drug called Vioxx.

The media in Australia and New Zealand follow the same method as Merck. They seek to destroy any who dare challenge what the brainwashing makes sacrosanct.

NZ EXPEDITION

Thereafter I traveled to New Zealand and in an act of kindness helped Murray W, who was vaccine injured when young, who then received 2 x infusions and was on the road to recovery but he read some media misinformation in this [story](#) which programmed his easily influenced outlook into adding weight to a 'police witch hunt' against me and thereafter failed to properly monitor blood sugar levels, coupled with a cavalier approach to insulin causing energy loss that prompted a calculating call for ambulance and disclosure enroute to hospital. I wish to thank the Registrar of the Hawks Bay Hospital for his honesty as evidenced by this

excerpt from his report confirmed Murray W's hospitalisation was due to his diabetic condition not the magnesium infusion.

Informed that Mr W [REDACTED] will make a full recovery and is in no danger of deteriorating. I ask for clarification as to his condition and magnesium. Informed that the injecting of magnesium (a vitamin) is not life threatening it is the fact the patient has ceased taking his insulin that has resulted in his unwellness. I confirm with the registrar that a full blood tox exam will take place. I leave my card with the Dr for adding to her file.

Meanwhile back in Australia, the woman I helped with the brain tumour then read the media misinformation about Murray W *'landing in hospital after my treatment'* and co-operated with the agents of Rockefeller medicine and spoke to biased media Newscorp journalist Cindy Wockner who wrote more misinformation about the magnesium and [DMSO](#) being 'dark' medicine and failing to address the issue that pharmaceutical poisons like vaccines in Bec Coombes brain being removed were the cause of the discomfort she experienced.

Furthermore both Cindy Wockner of Newscorp at the Courier Mail in Brisbane and Simon Hendery of Fairfax media in Napier NZ are both aware of my assertions that chemo therapy is actually Chlorine infused into sick people. This is 'dark' medicine and the sickness and deaths it causes is proof of how dark it is.

Contrast this with the fact that the media is comfortable with inflammatory lies about me but fail to address the massive elephant in the room that of vaccines causing inflammation of the cerebral cortex (brains) that lead to injury and death of babies.

Dr Russell Blaylock explains this process from a scientific angle in the following presentation:

Vaccines & Immunoexcitotoxicity - Dr. Russell Blaylock

As I attempted to leave New Zealand at 5am on Sunday morning, I was arrested at the Auckland Airport. I was taken in the back of the police van which was surreal for me because I had so often driven police vehicles. We arrived at the watchhouse which wasn't new to me but from this perspective it was as I had worked in one for several years in Townsville and Ipswich in Qld. The toughest assignment was drinking the chlorinated and fluoridated water. The smell and taste was enough to make me dread it so I chose to restrict myself to tiny portions. The food was quite toxic too. I decided not to eat and drink as little as possible. My tongue and throat was dry and I just had to drink something. I tried the tetrapak boiled juice and the sugar content and my taste buds alerted me of the fermentation response. I resorted back to water and could feel myself getting poisoned and sicker with each mouthful. I got through that first day and night and the next day was Monday when I would make a bail application with about 30 others in custody arrested over the weekend and one by one they were released until I was the only one left and it was 5pm. I felt hopeless and prayed for heavenly assistance. Then out of the blue an angel appeared in the form of a lawyer and she applied for bail. The NZ Police were doing their best to keep me in custody for absurd reasons but 'Annabel' did a wonderful job and I was released on bail for the ill-considered charge of Assault with a weapon. As I made my way home I was hit by a car and the trauma to my leg was such that I couldn't walk on it. That night I applied magnesium and DMSO and the healing was rapid. The next day I could walk tentatively and kept up with the Magnesium DMSO protocol and two days later I could walk normally. This is why I speak so positively about the protocol.

The so called victim who received the two intravenous infusions of Magnesium Chloride did so two days apart and was given a full explanation in a prior meeting so it is abundantly clear that the treatment was fully consensual and without coercion so therefore the assault charge is utterly absurd and should be changed to something more reasonable.

THE AMAZING BIOMAT

In New Zealand I also learned about and used the [Biomat](#) system and found it was wonderful for infusing hydrogen and oxygen to purify the body. Then a friend in Australia contacted me and said he had Kidney cancer. Arrangements were made to get a biomat to him. He made remarkable improvements and is well and truly on the path to a full recovery.

MORE MEDIA MISINFORMATION

Hawkes Bay Fairfax journalist Simon Hendery [writes](#) that my treatments led to the hospitalisation of Murray W but the evidence from Hospital Registrar above proves this is false. The article also awash with quotes from Rockefeller medicine devotees of whom one describes my claim that the biomat cures cancer as "ludicrous and unethical" and another says my "behaviour is unethical and dangerous". These inflammatory remarks totally contradict actual police evidence and the tenor of those remarks show graphically that the

author did nothing whatsoever to even investigate the biomat or the protocols. Wayne Dumschat is the person who used the Biomat to cure his cancer and would be happy to speak to them but will they call me for his number? I challenge them to do that... dated ...19/08/16.

NEW PROTOCOLS

As I was prevented from doing further IV work, so in conjunction with my brother Peter oral protocols were developed for achieving similar results to IV using Ancient Magnesium Chloride and DMSO in water. This method detoxes the brain and increases brain power and takes out the mercury and aluminium and thus eliminates cloudy thinking and migraines. The protocol for using DMSO and Ancient Magnesium orally is on the PDF page.

Replacement of hips and knees is a Rockefeller medical response to demineralised bones and worn cartilage. They can be restored with the protocols together with bone broths that rebuild the skeletal system and connective tissue.

THE INCREDIBLE SLEEP ON COMMAND

Then I discovered the Pulsed Electromagnetic Field ([PEMF](#)) for detoxification, restoration of cell voltage and sleep enhancement. This incredible device has restored my sleep. Also a powerful detoxing tool during sleep on the recovery mode. The best part is that it restores cell voltage which is otherwise harmed by mega hertz. This is the best answer to defending ourselves from the high power radiation of mobile phone transmission towers etc.

IN CLOSING

It matters not what the media say because the truth will always come out with honest people.

The Ancient Magnesium Oil, DMSO, Superoxy and Iodine will help you and are the least expensive options for effective removal of toxicity and oestrogen. Read more in the Restore your Health document [here](#).

However if you have a more pressing condition then the biomat is essential for you as it will empower you to heal at home more powerfully without disrupting your lifestyle.

If you wish, I also offer guidance on diet to promote healing and will keep in contact throughout the application of the easy to follow protocol if that's your desire.

Yours sincerely

Chris Savage
